Meet & greet

Mine Çetinkaya-Rundel

Professional Educator & Data Scientist, RStudio

Professor of the Practice, Duke Statistical Science

Overview

- Welcome
- From reproducibility to interactivity
- Building user interfaces
- Time permitting: Get started with reactive programming
- Lots of "your turn" breaks
- Two 10-minute rest breaks an hour and two hours into the workshop

Communication

Choose any method that you prefer:

- Put questions in the chat as they come up
- Type "hand" in the chat if you'd rather not type up your question
- Use the "raise your hand" function
